Cottage Gardens' SPECIALTIES

Japanese Flowering Cherries.

*Always the new and
unusual for those
who love fine
plant material*

1935

**THE COTTAGE GARDENS
LANSING, MICHIGAN**

Japanese

Rose-Flowering Cherries

Several years ago we began growing the different varieties of Japanese Flowering Cherries. To our great delight we found that the following varieties proved perfectly hardy in our coldest winter. Thousands travel to Washington, D. C., every spring to see the flowering cherries. You can now have them in your own garden.

We graft our Japanese Cherries and plant them into the open field without protection and this may be the reason that our stock is so exceptionally hardy.

All plants offered are fresh-dug.

	Each	Per 10
HISAKURA (Ichiyo) , Large, double pink. One of the finest of all Japanese Flowering Cherries.		
3-4 feet	\$.95	\$ 7.50
4-5 feet	1.50	12.50
5-6 feet	1.75	15.00
KOFUGEN (Fugenzo) , Deep double pink.		
3-4 feet95	7.50
KWANZAN (New Red) , Double, old rose, a very fine variety.		
3-4 feet95	7.50
4-5 feet	1.50	12.50
6 feet	1.75	15.00
SHIROFUGEN (Victory) , Large, double, light pink. An exquisite variety.		
3-4 feet95	7.50
4-5 feet	1.50	12.50
5-6 feet	1.75	15.00

We can also supply larger sizes of above varieties.

Chinese Tree Wisteria

Chinese Wisteria grown in tree-form, one of the most exquisite plants for the garden, either as specimen in the lawn, border, formal garden or as gateway.

We have a limited stock available and the plants will be set with bloombuds.

6 foot stems, Balled and Burlapped, **\$10.00 each.**

3 foot stems, Balled and Burlapped, **\$ 5.00 each.**

We also can supply regular Wisteria Vines, 2 year No. 1, bare root at **75c each.**

Our Wisteria are grafted from flowering wood. These plants can be raised quicker from seed but unfortunately such stock often does not bloom within one's lifetime.

Chinese Flowering Crabapples

"At the other side of the garden is another Crab Apple, spreading its branches above a group of delicately flushed Tulips — that rise from a waving sea of Forget-Me-Nots. All my Crab Apple Trees have been attendant gatherings of Tulips ... "Louise Beebe Wilder in "Colour in My Garden" ...

Not only do these graceful plants add a profusion of color to the garden in the spring, but also brighten up the fall picture with brilliantly colored fruit in shades of green, yellow, orange, scarlet, maroon and crimson.

Several years ago we began to see the value of these Exquisite Flowering Trees for North American Gardens and we have built up a collection that, we believe, will prove of great interest to all lovers of fine plant material.

B & B, Altho not necessary, if you should desire B & B of these plants, there will be an extra charge, as follows: 2-3', **25c**; 3-4', **30c**; 4-5', **50c**; 5-6', **60c**; 6-8', **75c**; 8-10', **\$1.00**.

	Size	Each	Per 10
ARNOLDIANA , An abundance of small semi-double, pink blossoms followed by yellow fruit	3-4'	\$.95	\$ 7.50
	4-5'	1.25	10.00

Tree Peonies - - -

(*Paeonia Arborea*)

"The King of Flowers"

Including the Newest in Double Yellow

Generally speaking the Tree Peony differs from the herbaceous peony in that the stems of the Tree Peony are woody and the plant will attain a height of over 5 feet.

Tree Peonies bloom abundantly throughout their long life. They are perfectly hardy. Complete planting directions may be had on request and will be sent with every order.

SIZE OF PLANTS: At prices quoted we supply strong two to three year old plants from 5" pots.

	Each
ARCHIDUC LUDOVICO , Enormous wide flower, double flesh-pink, turning soft lilac.....	\$ 5.00
ATHLETE , Immense, double flower of fine glazed mauve, shaded rose; vigorous and prolific grower.....	5.00
CHROMATELLA , This striking novelty is a sport from the beautiful variety "Souvenir de Maxime Cornu." Color: a pure sulphur yellow without any shade of salmon or buff. The flower is full double.....	50.00
COMTESSE DE TUDER , Lively salmon, petals tipped satiny white; fine full double flower; free bloomer	5.00
FRAGRANS MAXIMA PLENA , Double, Salmon flesh-pink, bronzed foliage. Very beautiful.....	5.00
JULES PIRLOT , Large globular flower, perfect in form; satiny-pink, flushed carmine	5.00
LACTEA , Pure white, blotched carmine	5.00
LA LORRAINE , A cross between P. Lutea and a variety of P. Moutan. Large well expanded full double flowers of good substance; the petals nearly imbricated, being of a soft sulphur yellow with a salmon tinge when opening, becoming lighter and purer when fully expanded. (Awarded a work of Art at the Paris Horticultural Exhibition in 1909, awarded first class silver medal at the Ghent Qui-quennial Exhibition 1913, first class certificate from the Floral Committee of the Royal Horticultural Society, May 14, 1913).....	35.00
MME DE VATRY , Very large globular bloom, satiny-pink, shaded lilac; vigorous grower.....	5.00
REINE ELIZABETH , Flower perfect in shape, vivid salmon-pink. A brilliant color; considered among the finest of all double Tree Peonies.....	5.00
SOUVENIR DE DUCHER , Large, globular bloom; bright reddish violet with silvery reflex.....	5.00
SOUVENIR DE MAXIME CORNU , A vigorous variety, raised by L. Henry at the Paris Museum from P. Lutea hybridized with P. Moutan Ville de Saint-Denis. It forms a bush 3-4 feet high with abundant and healthy foliage, every stem carries 2 or 3 full flowers, 8 inches or more across, with crowned and wrinkled petals, of a deep yellow, heavily shaded orange, fragrant. (A.M.R.H.S.)	20.00
TRIUMPH DE VANDERMAELEN , Clear rosy purple brighter in center; very floriferous.....	5.00
SURPRISE , A tall vigorous variety, flowers carried by strong stalks, very large and full; the color is a combination of straw yellow, pale salmon and rosy-purple, of a very novel character. Fragrant.....	50.00

Fine Evergreens

The evergreens we offer are all grown properly spaced and regularly transplanted and where desirable, sheared. Strictly quality stock. Our soil makes a fine root system and balls well. Unless marked otherwise, all Evergreens are Balled and Burlapped.

Please write if interested in larger plants than we list here.

Cottage Gardens'

Exquisite Modern Peonies

— FOR SPRING (AND FALL) PLANTING —

"Had I but four square feet of ground at my disposal, I would plant a peony in the center and proceed to worship."—From "Paeonias in the Little Garden"—By Mrs. Ed. Harding.

Peonies that are dug in the fall and kept dormant in our Peony Storage over winter can be planted in early spring with splendid results. We have found that many of our customers who are making changes or additions to their garden in the spring like to plant their peonies at the same time. We therefore keep a good assortment ready for spring planting.

The fall planting season for peonies starts September first, and they can be planted until the ground is frozen solid.

Guaranteed to give complete satisfaction and to be True to Name.

SIZE OF ROOTS: We send out strong divisions with from three to five eyes and adequate Root System, Standard of the American Peony Society, from healthy plants not over three years old, grown on soil that has not been used for Peony Culture before.

What the ratings before the varieties mean:

9.5 or more, almost perfect	
8.5 fine	9.0 very fine
7.5 good	8.0 very good

DOUBLE VARIETIES

Rating (Symposium American Peony Society)
